

International Conference
**PROJECT MANAGEMENT
FOR RESULTS**

May 27-28, 2011 Kathmandu
Supported by IPMA

May 5, 2011

Subject: Invitation to participate at the "International Conference: Project Management for Results"

Dear Sir / Madam

Bistamundi!
www.bistamundi.com

Greetings from Project Management Association of Nepal (PMAN), a National Member Association of International Project Management Association (IPMA)!

We are glad to share with you that PMAN is organizing the "International Conference: Project Management for Results" to be held at Gokarna Forest Resort, Kathmandu, Nepal on May 27 - 28, 2011. This is a truly historic day for Nepal for two reasons: one for it being the deadline for declaring the constitution for our country and another for being the day of the first ever international event on Project Management in Nepal!

National and world thought leaders on project, program and portfolio management and project directors of big and mega projects as well as academicians from around the world are presenting keynotes, papers, and having panel discussions. The Executive Board members of the IPMA (www.ipma.ch), the international organization of more than 50 national member associations will also be here.

In this regard, we are also glad to share with you that soon, project management professionals will be offered a chance to enhance their project management career with internationally recognized IPMA's universal 4 level competence-based certification in Nepal.

We encourage you to take this opportunity by attending and/or supporting this truly world-class event organized here in Nepal without having to bear as much for registration fees; visa, travel and hotel costs to participate in similar international events in other countries. There could not have been a better chance to learn, network and enhance your horizon on project management knowledge and skills. There are PRE & POST Conference Workshops (requiring separate registration) on Using Social Media to Build Effective Networks in Business, Education and Government Communities; Problem Solving in Team Environment and WoW* Training of Trainer as well.

We have enclosed herewith the Conference Program, Project Management Skills & Techniques Workshops and Registration Forms. For more details, please visit www.pman.org.np or email: events@pman.org.np.

We kindly request you to have at least one delegate from your organization and forward this information to anyone who might be interested or are managing projects and/or programs with you.

We will be very pleased to provide any assistance you may need.

Thanking you and looking forward to meeting you at the conference.
